SPRING OF 1895.

WHOLESALE CATALOGUE

—OF THE—

MOUNT HOPE NURSERIES

ROCHESTER, N. Y.

ELLWANGER & BARRY, PROPRIETORS.

ESTABLISHED 1840.

We take pleasure in presenting herewith our Semi-annual Wholesale Catalogue for the Spring of 1895.

The stock herein offered is of the best quality in all respects and well worthy the attention of Dealers, Nurserymen and Planters.

We keep all of our departments fully up to the times, adding new variety of merit as soon as we are satisfied of its value.

Our collections are carefully examined every year, and such things as seem to have little or no value are discarded. In this way we offer to our customers assortments which we can recommend with the greatest confidence.

The extent and completeness of the collections of both Fruit and Ornamental Departments of these Nurseries; their reputation for accuracy, which is scrupulously maintained; the long experience of the Proprietors and their assistants, in digging, packing, shipping, and in every detail of Nursery work, are well worthy the consideration of purchasers. No pains will be spared to ensure satisfaction to those who favor us with their orders. Special attention is directed to the articles in this Catalogue in full-faced type.

 We also invite particular attention to our large and varied collections of Fruit and Ornamental Trees, embracing Flowering Trees, Trees of Drooping Habit, Hardy Flowering Shrubs, Evergreens, Pæonies, etc., and Nursery Stock in general, all at greatly reduced prices.

THE PACKING SEASON.

The Spring packing and shipping season usually opens here about the 1st of April and continues into the month of May. The planting season is not regulated by any particular month or day, nor by the state of vegetation where the planting is to be done, but by the condition of the trees to be planted. Hence, trees can be sent with safety from Rochester to localities several degrees south, even if they do not arrive until after the ordinary transplanting season in that locality has passed.

THE WONDERFUL NEW ROSE, "CRIMSON RAMBLER."

DIRECTIONS FOR SHIPPING.

Parties ordering are requested to state explicitly the mode of conveyance by which they desire their trees forwarded. When no route is designated, we exercise our judgment; but in no case do we assume any responsibility after the packages are shipped, unless for our own mistakes. When losses occur by detention, claims should be at once made on the forwarders.

CONDITIONS OF SALE.

FIRST—The articles on the following list will be furnished at the annexed prices only when the quantity specified shall be taken. *Five hundred* will be furnished at the *thousand rate*, fifty at the *hundred rate*, and six at the *dozen rate*. *In no case will we supply long lists of selected varieties, two or three of each of either Fruit or Ornamental Trees or Plants to Nurserymen or others at wholesale rates, but at such a discount from retail prices as circumstances will justify.* Ordinarily a discount of from 20 to 33½ per cent. from retail single prices will be allowed on such lists. *Special rates given on very large orders.*

SECOND—In furnishing assortments of Fruit Trees, as well as Ornamental Trees, Shrubs and Plants, at the prices in this Catalogue, we reserve the right of selecting varieties, but these will be of leading popular sorts, and in all cases we will give the purchaser his choice as far as practicable.

THIRD—While we exercise the greatest care to have all Trees, Shrubs and Plants, genuine and reliable, and hold ourselves prepared to replace, on proper proof, all that may prove untrue, we do not give any warranty, expressed or implied, and in case of, any error on our part, it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for a greater amount than the original price of the goods.

FOURTH—The terms of payment, CASH, or satisfactory security on delivery or shipment of trees.

The prices annexed do not include packing, for which a moderate charge, covering cost, will be made; but no charge is made for the conveyance of packages from the Nursery to the Railroad station.

CATALOGUES.

The following Catalogues are sent, as soon as issued, to all customers whose names are on our books, and to all others who may apply.

GENERAL CATALOGUE (published Spring, 1894,) of Fruit and Ornamental Trees, Shrubs, Evergreens, Small Fruits, Clematis, Hardy Herbaceous Plants, Roses, etc., (160 pages and beautifully illuminated cover) containing brief hints on transplanting, distances for planting the various trees, and other useful information. This edition has been prepared with great care; the descriptions are complete and correct, and the illustrations are mostly from photographs of specimens in our collections. We trust that it will serve not merely as a price-list, but will prove a useful hand-book. A list of the best novelties to date is given separately.

NEW SUPPLEMENTARY CATALOGUE, just issued, of New and Rare Trees and Plants. A work of art, containing twenty-eight new half-tone engravings, some of them full-page, **Free**.

CATALOGUE OF POT-GROWN STRAWBERRY PLANTS AND HOLLAND BULBS, issued in July.

WHOLESALE CATALOGUE OR TRADE LIST, issued semi-annually.

A Grand Novelty! The Wonderful New Rose,

CRIMSON RAMBLER,

"300 Blooms on one Shoot."

See Price on page 21.

1895

FRUIT TREES, SMALL FRUITS, Etc.

NOTE.—In filling orders at the prices annexed, we reserve the right of selecting the varieties, but will consult the wishes of our customers as far as we can. Orders for select varieties will be charged at special rates. Such articles as are not enumerated in this list can be supplied in retail quantities only.

The Wonderful New Rose,

“CRIMSON RAMBLER.”

“300 Blooms on One Shoot.”

A correspondent of the *London Garden* writes in the issue of July 14, 1894 :

“With me at this date (July 6) this Rose is grand. I have a dozen large plants on prepared land on turf. I did not prune much, merely shortening back and placing stakes to support the long growths. I gave a liberal mulch early in the Spring, with the result that the growths are very strong, and the clusters of *bright crimson* flowers at this date beautiful. *On one shoot alone I counted over 300 blooms.*”

ROSES.

We make the culture of the Rose a specialty. Our list of varieties has been carefully reduced so as to include only the very best; we annually import the desirable novelties, and carefully weed out such as are not thoroughly good and distinct. Special attention is directed this season to the wonderful New Rose "Crimson Rambler"—attention is particularly directed to our stock of

HARDY ROSES.

Superb Field Grown Plants.

OWN ROOTS AND BUDDED.

Plant in April and Have a Fine Display in June and July of the Same Year.

Parties intending to plant in either large or small quantities will find it to their advantage to correspond with us at once, in order that they may secure the varieties they desire to purchase.
